# Participate in One-Health Data Portal Research Study

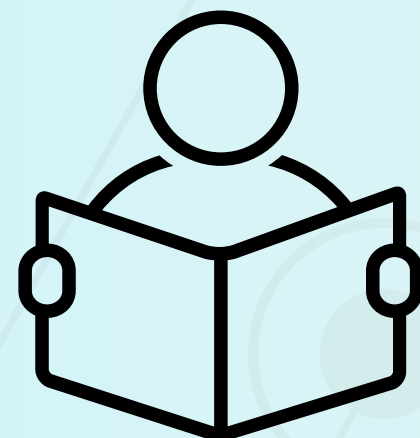

We invite you to participate in a qualitative research study led by **Dr. Kamal Raj Acharya** (Postdoctoral Fellow) and **Dr. Bouchra Nasri** from the University of Montréal. This study aims to understand the needs and expectations of One-Health data portal/dashboard users as part of the OMNI-RÉUNIS project, which aims to create a sustainable data portal for researchers working on One Health issues.

## About the Study

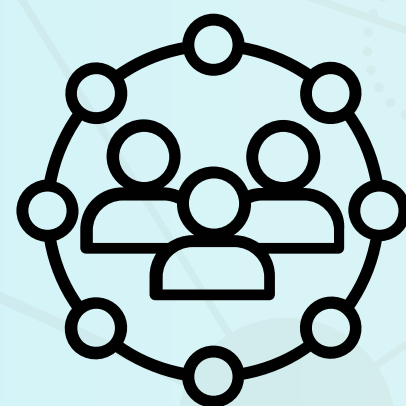

The study aims to understand:

- The data access and use experiences of researchers working on One Health issues,
- The needs and expectations of One Health researchers regarding the functionality and sustainability of the data portal that is being built.

## Your Involvement

- Participate in a two-hour discussion
- Voluntary participation with the option to withdraw anytime

## To Participate, You Could Be:

- Researchers working on OMNI-REUNIS project themes
- Representatives of funding agencies
- Government agency representatives hosting data
- Independent One Health researchers
- Subject matter specialists: Computer engineers, Data Scientists, Librarians, etc.

## How to Participate?

- Electronically sign the consent form [here](#) or scan the QR code.
- Signing the consent form confirms your agreement to participate.

Please note that this discussion will be conducted in English. For additional information, please visit the [dedicated page on our OMNI-RÉUNIS website](#).
